

WHO are we?

**Backyards across
AMERICA** are
becoming a part of
the clean-energy
revolution!

WHAT IF
your backyard
or driveway
could provide...

WattLots is an innovative American design and manufacturing company specializing in unique solar-powered revenue generating systems for commercial, retail, municipal, university and residential properties. Let our design teams show you how easy, and elegant it is to optimize your outdoor space and improve your bottom line!

emergency backup
power *AND* make
you money?

WATTLOTS

Grace your home with a Power Pergola™ from WATTLOTS and never be without power again!

Your Power Pergola™ provides a beautiful addition to:

Technology and Design

Our patented solar-powered systems are:

- An elegant, convenient way to ensure you have electricity in an emergency even when the power goes out
- Visually appealing – designed by the first LEED accredited architect in NJ
- Self-contained, quiet and clean because they are powered by the sun
- Easy to install and maintain

WATTLOTS

Like nothing else under the sun

Your Driveway, Patio, Pool or Garden:

- A shaded space to lounge or park
- Electrical outlets
- Video security cameras
- LED accent lighting
- Electric vehicle charging
- Noise and pollution free back up power source
- Free solar energy from the sun
- A unique and creative way to “get your green on!”
- With optional battery back-up WattLots Power Pergolas provide instantaneous back up power to run your furnace, your television, your sump pump, your refrigerator, charge your portable devices and light your home! And unlike gas powered generators, Power Pergola’s are silent, require NO dirty fuels, oil, or maintenance!

State-of-the-Art Design Specifications:

- Patented, proprietary technology
- Designed and manufactured in the USA
- UL approved
- Designed specifically for maximum performance in temperate climates, unique design sheds snow and ice providing power throughout the winter
- Maintenance free operation
- 20 year warranty

Let us design the right system for you!
